Hi Oisin,

Thanks for your email.

We acknowledge that as a student of the Diploma in Cloud Engineering, there has been some confusion regarding the allocation of the correct credits by the administrative department.

After our meeting with Luke on 10th May, we suggested that you will revoke your credits for two approved studies and instead apply for Recognition of Prior Learning (RPL) for the subjects of database concepts ISYS2390 and web programming COSC2446. Yes, We also discussed the provision of a fee waiver to cover the additional costs in the event of taking more than 4 courses due to the Administrative Error.

We assure you that we will provide you with sufficient assistance to complete your associate degree and facilitate your progression into the bachelor's degree program.

If you have any further questions or concerns, please feel free to reach out to us. We are here to support you in your academic journey.

Kind Regards,

Kanchan Aggarwal

Subject: Semester 2 2023 Courses

Dear Kanchan,

I hope this message finds you well. I'm writing to express my gratitude for the time you invested in our recent meeting on the 10th of May 2023.

Your guidance and support in helping to resolve my credit issue and plan for future studies is greatly appreciated.

I am writing to confirm my understanding of our discussion and the proposed plan to resolve the crediting issue and overcome the associated challenges.

I understand that, in order to complete the Associate Degree of Information Technology, I am required to undertake the remaining four core units.

Additionally, we have agreed that I will undertake a technical overload in Semester 2 of 2023, by taking the following courses:

MATH1150 Discrete Mathematics,
COSC2391 Further Programming,
INTE2507 Virtualization,
COSC2446 Web Programming,
ISYS2390 Database Concepts,
and
COSC2384 Networking 2.

The additional subjects are vital to my success in progressing to the bachelor's level.

Further to this, we agreed that you would provide your support in my request for Recognition of Prior Learning (RPL) for some of the core subjects.

We also discussed the provision of a fee waiver to cover the additional costs in the event of my taking more than 4 courses due to the Administrative Error.

I believe this summary accurately summarizes our conversation and the agreed upon actions. However, if there are any discrepancies or omissions, I kindly ask you to correct them.

Thanks,

Oisín.
